PROFESSIONAL SUMMARY

IT / Software Developer with one year of professional experience at SMBITS PH and prior full-stack software-development internship experience at TechnoPH Systems and Integration Inc. Experienced in website development, WordPress, ERPNext implementation, business-system configuration, deployment, troubleshooting, and practical digital solutions.

PROFESSIONAL EXPERIENCE

IT / Software Developer
SMBITS PH

Current - 1 year

- Work on website development and WordPress projects.
- Support ERPNext implementation and business-system configuration.
- Assist with application deployment, troubleshooting, and technical support.
- Help translate operational requirements into practical technical solutions.

Software Development Intern (OJT)
TechnoPH Systems and Integration Inc.

February 2025 - May 2025

- Served as project manager and team lead during a full-stack internship program, coordinating tasks, sprint planning, and project progress.
- Developed internal web applications using JavaScript, Node.js, Next.js, Chakra UI, and MongoDB.
- Worked on REST API integration, data modeling, database management, and frontend-backend integration.
- Conducted code reviews, supported team collaboration, and contributed to application deployment.
